SALARY INCREASES UP FOR DECISION COUNCIL TONIGHT

Prediction is That They Will Not Be Put Through by the Aldermen.

MAYOR STILL ADHERES TO HIS PAVING IDEA

Busy Time Seems to Be Fate of the City Fathers This Evening.

Mayor McNamara when interviewed this morning stated that he thought that the aldermen would not turn down his recommendation for the increasing of all the paving program and he intended to allow his original recommendation to this effect to stand. In view of the fact that other cities are curtailing their programs and this is a year of general retrenchment, he thought that it would be inadvisable to contract any increase in the way of improvements as the city has already undertaken a large local improvement program than any other city in the west apart from Paris.

Commissioner Harrison is submitting a report to the city council tonight with relation to the exchange of the two lots originally intended for a police station on Elmhurst street, together with a lot on College avenue for two lots on College avenue for library purposes and thinks that it would be advisable to have the city aldermen's opinion on this matter before taking definite action.

During the consideration of grants for charitable institutions early in the year a grant of \$1,000 was allocated for the first of April and the balance to be given quarterly. The captain of this body informed Commissioner Booth that it was necessary to have more money from this grant at the present time and Commissioner Booth is attending to council tonight that a change be made in the terms of this grant to the effect that the commissioner of health and safety be allowed to pay the balance of the grant at his discretion.

J. C. Collier through the firm of Parlee, Freeman and Abbott is writing the program for the provision of amusement devices and refreshments at the East End park. Collier is prepared to accept a license for a period of two or three years providing a franchise for five to ten years given. As payment for this privilege Collier is willing to pay rental or to share the profits on a basis to be decided later.

Calder Brothers are asking the city for the privilege of subdividing block "Z" Strathgery. This privilege has been refused by the city council on account of the irregularity of the ground for building purposes.

As previously stated in these columns Mayor McNamara is submitting a report to the council recommending the adoption of fortnightly council meetings.

The committee of operation are recommending certain changes in the capital charges to the street railway department and also that the fare for street railway be changed to a straight five cent fare except during the winter between 5.30 and 5 o'clock in the morning when it is recommended to charge at the rate of nine tickets for a quarter.

When the Annual Estimates for current expenditure were submitted earlier in the year to the city council it was stated that all increases to individuals would be brought up at a later date. The commissioners are therefore submitting a report dealing with the matter of salary increases.

At tonight's meeting the commissioners are recommending by the heads of departments, though not all the increases recommended have been approved. The commissioners have gone into the matter carefully, and have given due consideration to the merits of the individual, length of service, and responsibility attached to the position.

When the city commissioners were considering the police and engineering department increases yesterday afternoon it was decided to only submit a report to the council giving the totals of the increases recommended for the different departments.

A detailed list of the increases recommended by the different heads of the departments but which will not be

AGED TRAPPER SHOT DEAD IN HIS CABIN; PROBABLY A SUICIDE

Prince Albert, Sask., April 28.—Stephen Nichols, an aged trapper in the Candle Lake district, and well known in the Prince Albert section as he had been here since 1888 was found dead with a bullet wound through his body in his cabin, Candle Lake country. Thomas Walsh, who camped with Nichols found the body after an absence from the camp for several weeks. It is believed to be a case of suicide.

BORDEN EXPLAINS TO CAUCUS C. C. AID PROPOSITION

Work of Parliament Suspended While Conservatives Hold Meeting.

ALSO GUARANTEES TO GRAND TRUNK PACIFIC

Nature of Discussion Withheld, But Proceedings Are Harmonious.

Ottawa, Ont., April 28.—The work of parliament was suspended this morning in order that all the conservative members might be free to attend the caucus at which Premier Borden had before them the government's proposed Canadian Northern railway aid proposition. It is understood, to a plan for further aid in the way of bond guarantees to the Grand Trunk Pacific.

Three committees of the house were to have met, but in view of the importance of the matter to be discussed and the inability of conservative members to attend these did not convene. Naturally there was a great deal of interest as to the nature of the proposals in regard to which during the past two months or more there has been a great deal of speculation.

In the first place it will be recalled that it was reported that the Canadian Northern railway had been granted a loan, but this was denied on the authority of Hon. W. T. White, and other ministers. Since then, speculation has dealt with the probability of MacKenzie and Mann being given a guarantee of loan but there has been no official announcement as to the nature of the proposals.

All the statements which have been made contained the declaration that the railway might be given a guarantee of loan but there has been no official announcement as to the nature of the proposals.

As previously stated in these columns Mayor McNamara is submitting a report to the council recommending the adoption of fortnightly council meetings.

The committee of operation are recommending certain changes in the capital charges to the street railway department and also that the fare for street railway be changed to a straight five cent fare except during the winter between 5.30 and 5 o'clock in the morning when it is recommended to charge at the rate of nine tickets for a quarter.

The commissioners have gone into the matter carefully, and have given due consideration to the merits of the individual, length of service, and responsibility attached to the position.

COMMONS IN AN UPROAR REGARDS PRIME MINISTER

Pacified by Assurance of the Speaker That Asquith Offended Only Slightly.

MAKES NO STATEMENT ON HOME-RULE BILL

To Surprise of Both Sides Nothing Said About Ulster Situation.

London, April 28.—A warm afternoon sun beat through the lanterns of the prime minister's chamber packed benches, when the session opened to-day, members being flushed in a double sense especially by anticipation of further statements from Premier Asquith on the all-engrossing Ulster situation.

For some time questions to Sir Edward Grey, the foreign secretary on Mexican matters which would have aroused any amount of interest in normal times, went almost unheeded, members chattering noisily among themselves about their own troubles.

At length daily Ulster chateaus was reached on the other paper and the prime minister with impetuous force rose to answer the chief questions. The first were about the naval and military movements. A unionist member wanted to know whether last month an artillery battery had notice to move north from Cork. Mr. Asquith replied that he believed no such orders were given in the Irish command.

It is to repeat movements of troops to the military's enemies, but in Will Crooks, the labor member which drew a storm of derision from the unionist ranks.

Hardly had this initial small tempest calmed down, when Lord Robert Cecil, unionist, was on his feet, charging the premier with failing to observe the usual courtesies of the house. Whatever had happened had certainly not been observed by the greater portion of those present, but all the same each man took the provocation to himself, and an unending and prolonged uproar continued until the speaker pacified the opposition by assuring them that the prime minister had been guilty of but a small oversight. The incident, trifling in itself, serves to show how jumpy are the nerves and touchy the feelings of the legislators at the present moment.

All in all in position to make any statement about suggestions at this stage of the home-rule bill, declared the premier to be later to later to later. He added that he did not know when he would be able to make any statement about the bill. He said that both sides had no further statement today from the premier about the bill.

The business after the question period, was Austen Chamberlain's motion which practically amounts to a vote of censure on the government and it was called on at once. Austen Chamberlain reminded the house that when the premier in March spoke on his proposals for altering the home-rule bill he concluded his speech with a solemn appeal to the house and was afterward informed by Hon. Law and Sir Edward Carson that such proposals could not form a basis of settlement.

Premier Asquith, interposing—"I was told that they were hypocritical. Cries of laughter were heard. Mr. Chamberlain—"As the prime minister has recalled my attention to the fact that I did not say that I was not unimpaired. The prime minister knew at the time he solemnly made these propositions that we could not do so.

Mr. Chamberlain went on to upbraid the ministry for their refusal to judge the bill. The late war minister had given any assurance to General Gough, but that he had reduced it to nothing. The late war minister had only been the duke and took of unscrupulous men and he (Chamberlain) might as well be dealing with a lion. He thought that this is the work of Dan Marsh, the man who is being eagerly sought by the mounted police.

Proceeding to describe the movement of the troops, Mr. Chamberlain said that Sir William Robertson, the chief of the staff, was not unimpaired. "Are these troops," King George's or King Carson's? asked Sir William and had laughter from the opposition. Mr. Chamberlain ignored the interruption and went on to arraign Mr. Churchill.

Pittsburg, Pa., April 28.—The Pittsburg station of mines has already started a mine rescue car from Bluefield, W. Va. to Beckley, and a car will be sent from Pittsburg within an hour.

WASHINGTON AND GEORGIA FARMERS TO SETTLE HERE

Parties of Men from States Take Up Land Near Edmonton.

GOVERNMENT WANTS MEN WHO WILL FARM

Inducements Are Not Being Held Out to City Dwellers From Outside.

Having traveled two thousand miles from the state of Georgia, W. B. Garrison, his father and brother, yesterday walked into the office of Charles E. Hotchkiss, chief publicity agent for Alberta, at the parliament buildings, and handed Mr. Hotchkiss a letter he had written to them last February giving them advice about Alberta. The Garrisons are fairly well to do farmers, who have given up their holdings in the south and are taking up land in the Edmonton district. After seeing Mr. Hotchkiss the party visited the Dominion Lands Office, where they filed on homesteads in the district west of the city, along the line of the G.T.P., and last night they left by train to inspect their land.

U. S. Farmers coming to Alberta. Mr. Hotchkiss states that many farmers are coming from the United States and are going direct to the land. It was very gratifying, indeed, he said, to see the results which were coming from the publicity department. The city were already overstocked, said Mr. Hotchkiss, and the energies of the department are almost entirely being directed to the finding of men on the land.

Locate on A. & G. W. Route. This week six farmers from various points in the state of Washington came up on the C.N.R. train from the south, and spoke to Hotchkiss.

Hotchkiss happened to be on the train and got into conversation with the party. Two of the group were Deer, two of Laramie, three at Poncha and four came to Edmonton, intending to settle in the vicinity of Edmonton. One farmer declared his intention of walking along the Alberta and Great Waterways survey and settling a suitable location. Immigration is not nearly so great as during the past two years at this time, but in the present condition of affairs this is perhaps all the most satisfactory, especially as most of the settlers who are coming are those who are desirous of taking up land.

Department's Interest. "We want men who will go on the land," declared Mr. Hotchkiss, "and we are getting them, too. We want the settlers to feel that we have a personal interest in them and wish them to succeed. To this end we are anxious to see that they get started right, and any information we can give them which will enable them to start right we are glad to impart."

WABAMUN ROBBERY LOOKS LIKE WORK OF DANIEL MARSH

Word has been received at the sheriff's office, Saskatoon, that the robbery in the Wabamun district, this robbery was committed on Sunday night, and the details of the case are being investigated. It is thought that this is the work of Dan Marsh, the man who is being eagerly sought by the mounted police.

Improper Burial Charged. Prince Rupert, Sask., April 28.—Bud Murphy, father of the child whose body was found enclosed in a rudely made wooden box in a lumber yard at Hudson's Bay Junction, was "committed for trial on a charge of failing to provide proper burial, and brought to Prince Albert yesterday.

Miss Helen Dinmore Huntington.

Statest, N.Y., April 28.—That Miss Helen Dinmore Huntington is acting as nurse for her fiancé, Vincent Astor, at his beautiful home, Hopland, near here, is gleaned from the measure reports that are coming from the Huntington household, where Astor is seriously ill with pneumonia. The young couple were to have been married on April 20. Of course, the ceremony will be indefinitely postponed pending the young millionaire's recovery. Mrs. Astor, daughter of Vincent Astor, is also a constant attendant at the bedside of her sick son. She recently arrived from England, where she has a permanent residence, to attend her son's wedding.

MINE GUARDS AND STRIKERS RESUME FIGHT

Two Guards Wounded, But No Fatalities Result of Clash.

WOMEN AND CHILDREN HIDING IN CELLARS

Sheriff States Machine Guns Will Not Be Used by Defenders.

Boilder, Colo., April 28.—Fighting between strikers and mine guards at the Hecla mine, Louisville, which began at 10.30 last night, continued at 8.30 this morning.

At that hour two guards had been slightly wounded, according to Sheriff Bunker. No fatalities were reported. A posse of Boilder citizens was being organized by under-sheriff Bader and Deputy District Attorney Martin to go to the relief of the besieged mine.

The Hecla mine, the property of the Rocky Mountain Fuel Co., is located about one mile from Louisville, bounded on one side at some distance by a public road, beyond which is a row of houses and cabins. Sheriff Bunker in his account of the night's fighting, given by long distance telephone, today stated that the strikers were using these houses and cabins as protection.

For two hours last night the sheriff was caught between the two lines and took refuge in a store. About a clock there was a lull in the shooting, the sheriff's deputy, A. J. King, and L. McDonald, former marshal of Louisville, made a dash and gained entrance to the mine enclosure. A bullet fire was resumed at 6.30. Sheriff Bunker stated that under orders from him, machine guns had not been used by the mine defenders as

MAJOR CLARK OF ROYAL MARINES GOES ON TRIP

Representatives of Great Britain Show Willingness in Situation.

ALSO PUTTING REFUGEES ON UNITED STATES SHIPS

This Action Considered Likely to Make Demonstrations Less Probable.

Washington, D.C., April 28.—Admiral Mayo reported that Admiral Cradock of the British cruiser Hermione had despatched Major Clark and a detachment of British royal marines to rescue eight Americans from Tampico and was expected back tonight.

The Hermione sent 13 refugees aboard the Des Moines today. Admiral Budge reported that it would be inadvisable to send an American ship to the Yucatan district "as it might start anti-American demonstrations."

In regard to the reports from Tampico that American citizens there were impatient because of the departure of the American battleships, from the chief secretary of Navy Daniels said today that his action had been taken after Admiral Cradock had informed Admiral Mayo that he would undertake to rescue Americans from Tampico aboard the Hermione and transfer them to the Des Moines upon the American vessels taking a position at sea. This arrangement, it was thought Mr. Daniels said, would make anti-American demonstrations in Tampico less likely. "I will go in and bring the refugees to you," the British admiral was reported to have said to Admiral Mayo.

Southern Envoy Buys. Washington, April 28.—The envoys of Brazil, Argentina and Chile, who of course have now been formally accepted by the United States and the Huerta government to compose the crisis in Mexico, resumed their session today in the Argentine capital. Both governments now definitely before them the three envoys occupied a semi-military attitude almost in the presence of an international tribunal. Considering the attitude and desires of each side and endeavoring to find some middle ground on which both could stand.

The sessions are all private and surrounded by every safeguard against premature discussion of plans. It is known, however, that the chief effort today was to try to perfect a plan on which they have been working ever since their tender of good offices was made. It will be laid before the two governments at the earliest possible moment. The sessions are expected to be continuous throughout today and tonight.

The White House declined to make any statement, but it is understood that the United States would submit as a basis for mediation. It was announced that at 11 o'clock the formal discussion of the American proposals to the mediators was subject of consideration.

Fusion at Vera Cruz. Vera Cruz, April 28.—The transports bringing the fifth army brigade comprising the fourth, seventh, nineteenth and twenty-ninth infantry regiments under Brigadier General Frederick Shurtley were made fast at the docks shortly before 10 o'clock this morning.

Brigadier General Fumason, accompanied by Capt. Harry M. H. Huse, chief of staff of Rear Admiral Fletcher, immediately came ashore with his staff and took up quarters in the hotel. He is expected to be in the city for some time.

Count Resembled. The district court resembled a dry goods store this afternoon during the hearing of charges of burglary and receiving stolen goods against Frank Morrison, alias James Marlow and Mona Morrison, alias Mona Marlow. A huge assortment of boots, shoes and clothing, both ladies' and men's alleged to have been stolen from the store of J. B. Starrock and Company of Norwood Boulevard filed the solicitor tables.

Earlier in the day the male prisoner was found guilty of stealing \$150 worth of property from the house of George Everett Smith and belonging to Mr. Smith and his wife, while the woman prisoner was found guilty of receiving stolen goods.

Judge Taylor reserved judgment.

CANOEING SEASON OPENS ST. ALBERT

Motor Boats, Canoes and
Punts Seen on River Dur-
ing Week End.

LARGE NEW CLUB HOUSE
St. Albert Will Be Popular
With Edmonton People
This Summer.

The canoeing season was opened on Saturday at St. Albert by a number of members of the Edmonton Canoe Club who placed their craft in the water for the first time this year. By special arrangement with Revillon Wholesale, seven new canoes purchased by members of the club were taken out to St. Albert on a motor truck, the owners of the canoes accompanying.

The truck made a jolting journey down Jasper avenue and along Twenty-fourth to the St. Albert river, flying the Canoe club colors. On arrival at St. Albert the canoes were got ready and launched. Some of the members stayed over till Sunday and spent a delightful day on the river. A number of motor and punts owned by local people were also seen on the water.

The ice has not yet gone out of Big lake, but with warm weather this week it should be gone by Saturday, owing to the interruption to the Inter-lake car service the number of visitors during the week end was not so large as it would otherwise have been. As soon as the cars are running again, St. Albert will have scores of Edmonton people out there for week end recreation.

The fine new club house is practically complete and is just receiving its covering of paint. By special arrangement for dancing will hold 200 people. The room has a fine open fireplace, a large verandah, extends over the length of the front and one side while underneath there is storage accommodation sufficient to hold all the canoes. The club has a membership of 50.

BRITISH COLUMBIA EXPORTS MORE FISH THAN THE MARITIME

In a report recently presented to the British Columbia legislature it was stated that the value of the fisheries products of that province for 1913 was \$14,458,488 out of a total for Canada of \$23,585,464. It was pointed out that the British Columbia product more than equalled the product for the same period of the maritime provinces. The salmon pack was largely responsible for this, although, owing to the increased demand for the cheaper varieties of the canned article, it shows a slight falling off from the previous year.

The salmon pack in British Columbia in 1913 amounted to 1,352,901 cases, which is the largest pack of any year in the history of the industry. The Fraser river produced during 1913 one-quarter of the whole pack of the province, while during 1912 its proportion of supply was but one-sixth of that of the province. The herring catch was much greater in 1913 than in any previous year, having increased its value by more than \$600,000. In similar increase is shown in the value of the halibut fishery. The value of the halibut fishery in four years increased from about \$1,000,000 to \$2,500,000. The number of persons employed in the fishery in British Columbia last year was 15,628.

STATES YUKON GOLD FIELDS YET ONLY IN THEIR FIRST STAGES

Let W. Steele, a gold miner of considerable reputation in Alaska and Yukon, and who is said to control more placer claims in that territory than the Government, is in the city and considering the formation of a company here to develop 25,000 acres of dredging leases among those whom he has interested in the project being Col. R. J. Saunders, city commissioner. Mr. Steele states that there is a vast difference in gold mining today and years ago. He believes that there is practically no speculation in the business today, except in the initial stages, and that profits can be figured in it more accurately than in most other businesses. He also says that the Yukon and Alaska fields are only in their infancy as yet, a large proportion of those regions still remaining untouched.

HEADACHES ALMOST DROVE HER WILD

Until A Friend Advised Her To Use
"Fruit-Lives"

Newbury, Ont., May 29th, 1913. "About four years ago, I was in a dreadful run-down condition, weak, and hardly able to walk up stairs. Weakness peculiar to women was the chief trouble. I had headaches that almost drove me wild, and most distressing constipation. I took many dollars' worth of medicine from the doctors without any good results. A neighbor advised me to take 'Fruit-Lives' and they proved to be the best medicine I ever got and the only medicine to do me any good. Today, I feel as a young girl, and am able to go about my household duties as usual. My health is splendid and 'Fruit-Lives' is the cause of it." Mrs. Wm. CRIM. See a box for \$2.50, trial size, 25c. SOCIAL EVENT FOR YOUNG CHURCH GOERS AT Y.M.C.A. TONIGHT

One of the social events of the season will be held at the Y. M. C. A. tonight when the young people of all the city churches will be the guests. A splendid program has been arranged.

Early in the evening an armored patrol made from the First Freshly-rodian church will endeavor to break the "Seldom-feds" from McDougall in a game of Basketball. In the first game between the winners of the first games and the "Die-harder" from First Baptist, fire-arms and weapons of all descriptions will be barred.

As the spectators' seating capacity is limited, and to prevent overcrowding, it has not been announced till now that the volleyball championship of the evening will be played between the "Giants" from Westminster and the "Cometbees" from Wesley. The winners' clash with a ministerial appreciation for the title.

Well known local artists have been secured to provide the musical and literary numbers, and a good time is assured all who attend.

SPRING SICKNESS COMES TO EVERYONE

Spring sickness comes in some degree to every man, woman and child in our climate. It is that run-down condition of the system that results from impure, impoverished, devalued blood. It is marked by loss of appetite, loss of the blood and its many causes by some form of eruption. The best way to treat spring sickness is to take Dr. Williams' Pink Pills. Ask your druggist for this all the year-round medicine. It purifies, enriches and revitalizes the blood.

St. Louis will hereafter purchase office supplies for municipal use in wholesale quantities.

Drinking Men's Wives

You can save your drinking husbands and sons by giving them the Neal Treatment. CITY ASKED MAKE CONTRACT RE GAS WELLS AT VIKING

President Magrath of Industrial Association Requests Commissioners Take Definite Action.

WOULD TAKE BRODIE'S WORD FOR AMOUNT FLOW

Question Referred to Council and Will Come Up This Evening.

Some time ago the secretary of the Edmonton Industrial association wrote to the city commissioners as follows: "I am requested, by the Edmonton Ad Club gas committee, to ask you whether a lease in the regular form has been taken out by the city of Edmonton, for the boring of a gas well on the north west quarter of section 24, township 18, range 10, west of the 4th meridian.

"We are advised that the drilling outfit is now at Viking, and is being moved upon the ground, and we understand that this lease must be secured, and the money deposited with the Dominion government, before drilling operations begin.

"I am also requested to ask you whether the city of Edmonton will enter into a formal contract with the Edmonton Ad Club gas committee whereby the city of Edmonton will agree to take over the well at the above location, and return to the contributor to the fund the amount of money contributed by him, in case a flow of gas satisfactory to the gas engineer, is encountered in this first well, such flow of gas being sufficient to produce 10 per cent. upon the investment. This question has arisen several times among men who have been solicited to contribute towards this fund, and we feel that it would greatly facilitate this work if a formal contract were entered into as quickly as possible, thus assuring the contributors that our promises to them would be carried out.

"We shall be glad to hear from you in both these matters at your earliest convenience."

Yesterday afternoon W. E. Macrath, president of the Industrial association (treasurer to the Ad club) interviewed the commissioners, and asked them what definite action be taken on the matter as the company was about to start drilling for gas, and he expressed the opinion that if a flow of gas were struck, sufficient to indicate that there was undoubtedly an ample supply for the city, that the company should be then reimbursed for the amount of investment. Mr. Macrath also suggested that Jas. Brodie, the ex-gas engineer for the city, be re-employed to look after the drilling and inspect the work at Viking. Mr. Brodie had been about the city hall for the past month but not on the city's payroll. The whole matter was referred to council to be dealt with at tonight's meeting.

FIRST RIBBON SHOW KENNEL CLUB WILL BE FREE TO PUBLIC

The first ribbon show of the Edmonton Kennel club will be held on Thursday in the building at the corner of First street and Nelson avenue, the breed for this show being confined to terriers. The club, owners and breeders are welcome to exhibit. Entries may be made to the secretary, P. W. Finchback, at home (No. 1763) or at the door not later than 7:45 p.m. Judging will commence at 8:30 sharp.

The show for next month will be for sporting dogs (terriers, harriers). Full particulars later. The entry fee is 25 cents for one dog and 50 cents for two or more. A large number of entries are expected for this, the first show of its kind, in Edmonton. The public will be admitted free, and a good exhibit of the terrier breed of dogs is guaranteed.

Building Party Collapses.
 Moose Jaw, Sask., April 28.—A portion of the Douglas building, a reinforced concrete structure, has collapsed. The contractors, the National Construction company, have been working on the building pouring the top slab. The basement and first floor were being laid in January, 1912. In severe weather, and operations were discontinued. The slab was not protected from the frost or artificially heated, and when the stress of the slab broke, it was put on its last legs, portions were it had been most exposed to the weather they gave way.

Picture Machine for Church.
 A habitation picture machine has been added to the equipment of Westminster Presbyterian church, and on Wednesday evening the first exhibition of pictures will be given in the church auditorium. These include a number of travel and bible scenes, illustrated hymns, and a series of slides for the recent social survey in Edmonton. The lecture-table will be given by Rev. H. N. MacLachlan, and a collection will be taken.

South Side Liberate.
 The liberal meetings arranged by the north side executive for this week have had to be postponed on account of the school term not being available. The next meeting will be held on Monday, May 4, at the city Dairy, Gallagher Place.

Fatally Hurt in Runaway.
 Nelson, B.C., April 28.—Injured by a runaway near Rossland, B.C., while out with a wedding party, Mike Boser, a young Austrian, received fatal injuries tonight.

Theaters and Picture Shows

MERRY MASQUERADERS IS A FEATURE AMONG FEATURES AT PANTAGES

It would be well worth anyone's time this week to spend at least twenty minutes or half an hour at the Pantages theater during the performance of Bothwell Browne's "Merry Masqueraders," the headline on the bill. This tinsel act is building over with merry mirth and jovial laughter and cannot but appeal to those seeking the spirit of merrymaking for an evening's entertainment. This is the third or fourth appearance of the company at this popular theater, but each appearance exceeds the other in point of safety and genuine comedy, and anyone seeing "The Merry Masqueraders" cannot but feel exceedingly happy for having witnessed it. Tinsel songs and choruses and beautiful costumes are featured strongly.

THIS STOMACH REMEDY HELPS YOUR FRIENDS

Almost every day some grateful person comes into our store and tells us of benefits received from the use of Beecham's Dyspepsia Tablets. Knowing how good they have been to them and knowing what they are made of, we feel sure they will help you. So present to our faith in them that we urge you to try them entirely at our risk with our personal promise that if they don't do all you expect them to do and make your stomach comfortable and healthy and your digestion easy, we'll hand back your money.

We couldn't endorse anything any more strongly than we do Beecham's Dypesia Tablets. Containing Pepsin and Bismuth, two of the greatest digestive aids known to medical science, they soothe the stomach, check heartburn and distress, promote a natural flow of the gastric juice, and help regulate the bowels. Remember, if they don't make your digestion so easy and comfortable that you can eat whatever you like whenever you like, we want you to come back and tell us and get your money back. Sold only at more than 7,000 Retail Stores, and in this town only at our store. Three sizes, 25c, 50c and \$1.00. A. Archibald, Druggist, 213 Jasper East.

WINNIPEG - MONTREAL

and rare good comedy in abundant quantity is ever present. Dainty dances and original and richly elegant scenery add much to the piece, but it must be seen to be appreciated.

Daisy Harcourt an English comedienne of no mean ability catches her audience on first appearance and ever after holds the attention of her hearers by her unique and typical English comedy songs, well sung. Miss Harcourt appears in costumes strikingly beautiful, as well as others of less attractive. Her entire act is above the ordinary and not usually seen here. She is little assisted at the piano by Hal Dyson.

"That Girl" is the title of a little skit by J. B. Devlin and Miss M. Erwood, that while not expected to teach people the wronging in the act of a thief, is interesting from a point of cleverness and rather unusual theme for entertainment. It's simply a case of a clever woman "dip" getting into the wrong room and by extreme slightness of hand, fingers and brains, getting away with most everything of value in sight. It has many amusing situations.

Salt Bush Bill the Australian whaler is surely master of his tools and wields the lash with a deftness wonderful to behold. He cracks a sixty-foot lash as much ease as he cracks the cigarette from his own mouth or fires the pistol in his own hand. His is a novel act and although lacking entirely in any entertaining features, cannot help but hold the interest of all who see it.

To Davis, the twentieth century lies, must go the plum for inadulterated nerve in the way of faking upon the imagination of his audience. Seated in the audience he answers a hurt-

Contracted A Severe Cold After An Operation.

DR. WOOD'S NORWAY PINE SYRUP

Effectuated A Complete Cure.

Mrs. Thos. A. Julian, Almonte, Ont., writes:—"Just a few lines to let you know how thankful I am for what Dr. Wood's Norway Pine Syrup has done for me. A few years ago I was operated on for appendicitis, and was confined to the hospital. When I returned home I contracted a severe cold which left me with a bad cough. A neighbor told me so much good I took another bottle, which completely cured me. I can very strongly recommend it."

Dr. Wood's Norway Pine Syrup contains all the lung healing virtues of the famous Norway pine tree, which makes it the very best preparation for Coughs, Colds, Bronchitis, and all Throat and Lung troubles.

Price, 25c and 50c. See you get "Dr. Wood's" as there are many imitations on the market. The genuine is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

MONARCH SHOWING EXCELLENT FILMS ALL OF THIS WEEK

Those that availed themselves of the opportunity offered at the Monarch yesterday to see "The Vacation Solider," were very agreeably surprised at the class of the film, that tells a story such as the cleverest writer of fiction would contrive.

There is action in every foot of the film; the finish is highly satisfactory and leaves a glow of pleasure. The hero is William Clifford and he is just as good in his previous efforts. The remainder of the program is well up with this feature.

Today is the last day this production is at the Monarch.

Tomorrow and Thursday, the Monarch will offer "The Fight for a Fortune," a sensational detective story, which is the second of the Detective Hayes series.

For Friday and Saturday the feature will be "The Squaw Man."

While being rescued from a burning schooner in mid-ocean, in the first reel of the picture, Mr. Farnum, fell overboard and was so badly stung by jellyfish that he delayed the operation of the company ten days. While riding at a headstrong pace through the great Cheyenne canyon in the Rocky Mountains, where the third reel was staged, Farnum and his musang fell and a supposed rescue turned out to be a very lively reality.

During the taking of the six reels, "Farnum had several other narrow escapes, but he says he is fascinated with the work and has decided to renounce the stage in favor of the silent drama."

The "Squaw Man" in six parts is the offering at the Monarch Friday and Saturday of this week. Regular prices will prevail.

COMEDY AND PATHOS MINGLE TOGETHER IN EMPRESS PROGRAM

Carlisle Blackwell, the Kalein picture player star, is seen in a very pretty and strongly presented two-part feature production at the Empress theater. "The Masquerader" it is called, and it heads altogether a very good program. Mr. Blackwell assumes the difficult role with genuine artistic ability, and the settings and background of the film are fully in keeping with the high class picture.

A heart touching western picture, "A Bull for the Lady" also takes well. Very few in the audience were not affected by the pathetic and appealing story told in this picture.

"Dollars—Pounds—Sense" is a good comedy. The story is a neat one.

"You're worth a million in gold!" This is what Charles Watson, a young spendthrift, told every girl he met. His father threatened to disown him unless he would marry a girl and settle down, and if he married inside of thirty days.

Colonel Watson was to give his son a hundred dollars in gold for every girl the girl weighed. Tall ones, slim ones, fat ones and small ones were proposed to without success, and when Watson called a widow on the telephone who weighed 248 pounds and proposed, he was disappointed when he arrived at the house and discovered

GOLD STANDARD MANUFACTURING COMPANY - WINNIPEG

Statistics show that Ireland's fisheries continue to decline in amount of fish landed and the number of men and boats engaged. Capitalists are displacing individual fishermen.

Every Person Welcomes the Approach of Spring

But every person does not care for that dull, tired, listless, all-down-and-out, don't-care-to-do-any-work feeling that overcomes one at this time of the year.

This feeling is caused by the eating of rich and heavy foods during the winter months, which, along with the indoor life, causes an accumulation of undigested and refuse matter in the system.

What is really needed at this time of the year is

A Good Spring Medicine

One that will clean out all of these impurities.

One that will cleanse the blood and get it into shape to withstand the heat of the summer months.

For This Purpose There Is Nothing to Equal

Burdock Blood Bitters

This grand old remedy has been on the market for nearly forty years and is, without a doubt, the best Spring Medicine.

Manufactured Only by the T. Milburn Co., Limited, Toronto, Ont.

The Bijou theater again presents another of its well selected and artistic programs, noteworthy for its refinement. In fact, either of the two dramas exhibited could well be chosen as features to lead an average high class program. And in addition is pictured a very good Keystone film, something that would alone well fill the spacious Bijou to its doors.

"A Story of Little Italy," manufactured by the American Film players with Sydney Ayres and Victor Rich, tells a pretty story of the alums and foothills of Kentucky. The settings are beautiful and the story is well told. A gine to the film that is in keeping with the splendid acting.

"The Path of Genius." It is a very entertaining picture, telling a story with an artist as the hero. There is true art in the picture, one very consistent thing in it being the early Georgian atmosphere that runs all through the film.

An unknown artist, John Ruskin, wanders into an English village and stops at the tavern. He is tired, weary and without much money. He promises to paint the tavern keeper a sign in return for something to eat. The sign does not impress the tavern keeper very much and when Ruskin, who has fallen in love with his daughter, Mildred, attempts to press his suit, the tavern keeper hides him before.

Years later Ruskin has become famous. His paintings are hung in the National Gallery and connoisseurs bid against each other for them. The coming of the railroads and the abandonment of the post roads have taken away all the tavern keeper's business. The old man dies and his daughter, Mildred, closes up the tavern and takes the sign board to an art dealer who recognizes the signature of Ruskin upon it. The art dealer obtains the young woman's address and then shows the famous artist his signboard painting. Ruskin, who has not forgotten his early love, obtains the young woman's address, buys the painting from the art dealer and then calls upon Mildred. Although surprised that one so famous as Ruskin should want to marry her, Mildred shyly puts her hand into that of her early sweetheart, the now famous artist, and soon after they are wed.

Second Lecture of Series

LIVE COMMENT ON PRESENT DAY

BOXERS: KING IS BOXING FAN

Johnny Coulon Will Fight June 9—George Chip Picking the "Lemons"—Packy McFarland and Mike Gibbons Due to Meet Soon—Presence of King at Boxing Bout Will Tend to Help Game.

King George bids fair to go down in history as the merriest of the merry monarchs of England. His attendance at the recent baseball game between the world-circling Giants and White Sox in London created nothing short of a sensation in the court circles of Europe. His announcement today that he has decided to be a regular patron at the boxing matches of the Second Life Guards has left Europe gasping for breath.

If true this move by his Majesty is going to be felt the world over and will go a great way in establishing boxing on its proper plane. "Long Live the King."

Now that Kid Williams, the Baltimore purser of Johnny Coulon has been finally signed up for a twenty rounds championship battle with the champion for June 9th, at Uncle Tom McCarey's Vernon Club it is to be hoped that Summy Harris, his shouting manager will confine himself to getting the Baltimore bayer in condition and allow the newspaper office attaches a much needed rest from their hourly outbursts.

This battle should prove a royal affair as the last struggle between these two boys furnished the spectators with some very interesting fighting. Williams on this occasion kept the champion busy from start to finish and many who witnessed the fight were of the opinion that the champion was very fortunate that he did not relinquish his title to the fast fighting Baltimorean.

The new rule just passed by the New York State Boxing Commission prohibiting fighters from selling tickets out of which they receive fifty percent is a good rule and should go away to a great extent with the fighters that are good salesmen but poor ring masters and give the real fighters

that know nothing about the business but everything about fighting a chance to demonstrate their true value.

The other rule abolishing the taking up of collections at boxing shows will no doubt prove popular. How many fans have purchased tickets for about and after getting to the ring side have seen some ex-fighter that only excelled in the "Boose" ring make an appeal for another chance to hit the fire water.

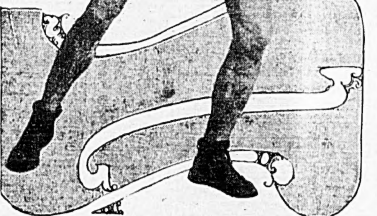

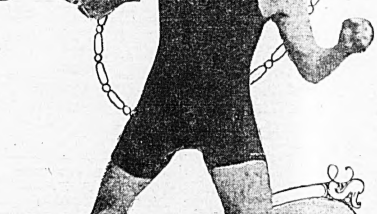

George Chip of Pittsburgh, who has done little since he knocked out Frank Klaus, the former middle weight champion is scheduled to again reenter the ring in a bout at Akron, Ohio with Gus Christie of Milwaukee. It is hoped that George will not decide to pursue the course of the other former stars and pick out soft spots but that he will take on some real live ones in the very near future.

Packey McFarland who recently denied the statement that he was going to forsake his native shores for some easy pickings over in Australia it is said will head the call of the fans and sign to fight his postponed engagement with Mike Gibbons and set at rest all talk of a "runout" that has been floating in the air ever since his failure to keep his engagement with Gibbons in New York.

BASEBALL TICKETS

Season tickets for the baseball games at Diamond park are now on sale at Dechene and McNell's cigar store. Season tickets admitting holder to all games are \$10 for bleacher seat and \$20 for grand stand.

LEACH CROSS—THEY CALL HIM FIGHTING DENTIST.

Los Angeles, Cal. 28.—Tonight's scheduled 20-round battle at Vernon with Leach Cross is all that stands between Freddie Welsh and the most determined champion for the world's lightweight championship that the British boxer has ever put up. This is saying something, considering that Freddie has been chasing the title holders since the days of Joe Gans. "If we win," says Manager Harry Pollak, "we will immediately post

HOW BROTHER MET BROTHER ON THE "MAT"

Story of Wrestling Tournament in Paris Where Vladok Zbysko Won Fame

Vladok Zbysko, who is expected to wrestle in Winnipeg on May 11th, is the real European champion, according to Ed White, who is managing the young Vlad. Vladok took the title from his brother, Stanislaus, at Paris in a championship tournament, which is held every three years in that city.

White tells the story of how the older brother defaulted to the younger, after both had battled their way through the eliminations which went on for three months.

"The Parisian wrestling fans are the cruelest in the world," says White. "They packed the place, because they thought they would see the two brothers bloody each other up. That got them."

Test Brother's Nerve
The two Zbyskos came into the ring ready to wrestle, but the older, who held the title himself, meant to default to "Vladok." But first he wanted to test his nerve.

This manager says that the older brother first asked the younger brother to default to him, telling him how he had suffered when he was in college, and saying it was not right for two brothers to maul each other in public.

"I love you, my brother," Vladok answered him, but I want that championship."

The referee called time and Vladok walked up to grapple with his brother. Stanislaus put his arms around him, patted him on the back, laughed at him, and told him to take the title.

"At first," says White, "the crowd was sore, and hissed and booed, but when they had time to think, the people went wild. Women took off their slippers and threw them into the ring. The papers made a big fuss over their said that there was \$100,000 at stake, but as a matter of fact it was much less than that. There was \$5,000 in money besides the belts and medals, and a gold cup given by a Parisian fan. The whole thing may have amounted to \$25,000, so it wasn't a small thing to give up. The older Zbysko, however, is wealthy, while Vladok is a poor man."

Referee's Assn. Meeting
A meeting of the Edmonton Football Referee's association will be held in the Y.M.C.A. on Thursday evening, April 26, at 8:30 sharp. A full attendance is requested.

OUR SPORTS FROM AN ENGLISHMAN'S POINT OF VIEW

The Football News, an English sporting paper, says: "Mr. W. Matthew Hayward, and old acquaintance of some readers, who has been in Western Canada and Vancouver some time, writes:—

"Football out here is keen, but not skilled; the refereeing vile, and the crowd, or 'fans' as they are termed, the most bigoted it is possible to imagine. This applies to all the sports. "Baseball is a great game here, and the players are wonderfully skilled and highly paid, but the poor umpire—well, no referee stands so much abuse. "Lacrosse is good to watch, but for real excitement ice hockey is absolute. They play seven men aside on artificial ice, and the speed and skill of the skaters makes one wonder. It is altogether faster, more strenuous, and more exciting than football."

LACROSSE PRACTICE

There will be a senior lacrosse practice tonight at Diamond Park at 8:30 to which any and all lacrosse players interested in the game are invited to turn out.

SAKATON GET BOB NORTHROP

Vancouver, April 28.—Pitcher Bob Northrop was released last night by the Vancouver club to the Saskatoon club of the Western Canada league on an optional agreement. He left last night with the Twilight leaguers for the east.

WITH EIGHT SENIOR TEAMS, CITY BASEBALL LEAGUE SHOULD FLOURISH

Last Night's Meeting Decided Number of Teams—Also Eight Teams in Intermediate Division—Diamond Park Available for Many Games.

There will be eight teams in the senior division of the city baseball league this year. This was finally decided at a meeting of the league last night at the Y. M. C. A. The teams will be as follows: Pennants, City Dairy, Excelsior, Red Sox, Atlas, Wholesalers, Olympics and La Rose. There will also be eight teams in the intermediate division.

Diamond park will be available on 21 dates for the city league baseball and the teams should experience no difficulty in securing necessary grounds for all games. An application for

franchise from the Knights of Columbus was received but when put to a vote was given to La Rose club. An application was received from A. Gray for a position on the league's staff of umpires. An invitation to send two teams to Fort Saskatchewan on May 25 did not meet with the approval of the meeting, and it is hardly likely that teams will make the trip, although the Fort sports committee for that day are offering substantial remuneration in the way of medals. The new league constitution will be published tomorrow.

RYLE EASY WINNER OVER EDDIE FOY: SECOND GAME TODAY

Billy Ryle won the first block of the bank line billiard match with Eddie Foy at the Empire billiard parlor last night. The table was new to Mr. Foy, which made a great difference in his play. Ryle played a better game than he has yet shown. He had the balls perfect and ran out with an unfinished run of 25. The second block of the match will be played today at two o'clock and the third at eight o'clock tonight. Score: Ryle—Total 150, high run 25, average 54. Foy—Total 77, high run 12, average 54.

Referee—George Sharp.

From Pistol-shot to Taps
New York, April 28.—Howard P. Drew, of Springfield, Mass., running for the University of Southern California, established a new world's record 1-15 seconds for a 90 yard dash at the games of the Loughlin Lyceum held in the thirteenth regiment armory in Brooklyn last night. The former record, 9-5 seconds was made in this city years ago by E. A. Frey.

PENITENTIARY POPULATION OF 1911 IN CANADA

Number of Persons in Jails
Shows Increase of 56 Per
Cent Since 1905

PAROLE SYSTEM EXTENDED Italians Are Most Serious Factor in Criminal Situation in Dominion.

The report on the penitentiaries of Canada for the year ended March 31, 1913, shows an average daily population of the penitentiaries during the year of 1911 which was an increase of 56 per cent. In the last ten years. At the end of the year there were 1,976 convicts of whom 104 were Canadian born. During the past decade there has been an increase of 10 per cent. In the number of Canadian inmates. In recent years the parole system has to a great extent been substituted for pardons. In 1899-1900 there were 74 pardons and 59 pardons but in 1912-13 there were 415 pardons and one three thirds of the end of the year show that 117 were from Italy, representing 33.3 out of every 10,000 Italians in the country, 268 or 87 per 10,000 were from the United States; 24 were from Germany, or 8.5 per 10,000 Germans in Canada; 67, or 7.4 per 10,000 Irish in Canada were from Ireland, and 206, or 4 per 10,000 English in Canada were English. The social habits showed about 25 per cent. to be in temperate.

SMITH GOT WISE TRANSFORMED INTO MAGNIFICENT PARK

Will Provide Splendid Place of
Recreation for Young
and Old.

AFTER EMPIRE DAY NAME WILL BE VICTORIA PARK

Officials Carrying Out Plans
Trying to Keep Close
to Nature.

Commissioner of Parks and Markets Harrison took a representative of the Capital yesterday to the golf links, or as it will be known after Empire Day, Victoria park, to look over the improvements that are being made, and gave a brief outline of the plans that were proposed to make this park one of the finest in the Dominion.
The main idea that is being carried out by Commissioner Harrison and Superintendent Von Aelsberg is to stay as close to nature, which has been very beautiful in giving a very picturesque spot to work up, as possible, and one cannot help feeling that the golf links, and out of the "rabbit trails," that one is out in the country, far from all care and worry and the tired, weary, monotonous feeling of relaxation and freedom.
Commissioner Harrison is negotiating with the provincial government to allow the city to grade the road that runs in front of the old fort from the government fence house to the golf links. This will give an outlet to Sixth or Seventh streets. Negotiations are also under way to acquire the land in the Hudson's Bay company, by way of a donation, an acre and a quarter for a drive along the E. Y. and P. railway, and for a road which will give a gradual grade down to the river drive. This drive along the river being graded and underbrushed to make it one of the most beautiful drives in Edmonton, and in time will be a most exquisite road and of great advertising value to the city.
A path is being made along the river's edge, wherever steps or small bridges are necessary the material being obtained from the park and the popular material being graded and placed side by side. There will be an automobile drive around the park.
The "rabbit trails" which are really as the ground has been underbrushed and a path cleared following the run of the river, will be graded and wind in and out, meeting with a continual change of scenery, and at the same time the city will be surrounded by the rays of the sun. These trails cross and intersect each other in every direction.
In the center of the park and in the midst of these beautiful rabbit trails will be a picnic ground capable of accommodating over three or four hundred picnickers. Tables, benches and swings will be provided and stone steps in real picnic style built by the caretaker for the use of the picnickers.
The links are beginning to show signs of spring and are in excellent condition. Yesterday afternoon a large number of golf enthusiasts were on the course, which showed that it was a good place to spend an afternoon. The question was asked, "If this man" turns out at the end of the year, many will turn out when the summer really comes."
The building that was turned over by the golf club are being renovated and re-shingled. A new caretaker's residence is practically completed and the club house is being built in the building west of the club house for the use of those who play golf. Fourteen quarters are being fitted up in the club house, and Commissioner Harrison stated that there would be no reserved every afternoon to those who desired it.
It would be possible to secure golf clubs and balls on the links, and he stated that there would be no reserved clubs, but there would be balls for sale at a price of five cents or more higher than the price at which they could be obtained from city merchants. He stated that this five cents was added in order that there would not be any opposition to the merchants and also as a small fine for the forgetfulness of the player.
At the present time there are upwards of forty men employed removing the underbrush and generally cleaning up the park. These men will all be laid off in a short time and the building of rustic benches, seats and general maintenance of the park will be left to the caretaker.

MAYOR IN FAVOR OF COMPLETE OPENNESS WITH DAILY PAPERS

Yesterday afternoon Mayor McNamee requested that the representatives of the press at the city hall be present at a meeting of the city commissioners where the question of increases in salaries are taken up. He again emphasized the fact that he was not present at an informal meeting of the commissioners a week ago last Saturday night and added, "I have not attended a meeting since the press was not welcome."
The mayor wanted a motion put through authorizing the city to give the press all information with relation to any meetings that were held at which the press was not represented. After a short discussion his wish was moved that the secretary to the city commissioners be authorized to allow the representatives of the press to scrutinize the minutes of any meetings. He stated that if there was anything further that the opinion of the press should be added he would be pleased to embody it in his motion. No further suggestions were made and the motion was carried as it stood.

GOLF LINKS TRANSFORMED INTO MAGNIFICENT PARK

Will Provide Splendid Place of
Recreation for Young
and Old.

AFTER EMPIRE DAY NAME WILL BE VICTORIA PARK

Officials Carrying Out Plans
Trying to Keep Close
to Nature.

Commissioner of Parks and Markets Harrison took a representative of the Capital yesterday to the golf links, or as it will be known after Empire Day, Victoria park, to look over the improvements that are being made, and gave a brief outline of the plans that were proposed to make this park one of the finest in the Dominion.
The main idea that is being carried out by Commissioner Harrison and Superintendent Von Aelsberg is to stay as close to nature, which has been very beautiful in giving a very picturesque spot to work up, as possible, and one cannot help feeling that the golf links, and out of the "rabbit trails," that one is out in the country, far from all care and worry and the tired, weary, monotonous feeling of relaxation and freedom.
Commissioner Harrison is negotiating with the provincial government to allow the city to grade the road that runs in front of the old fort from the government fence house to the golf links. This will give an outlet to Sixth or Seventh streets. Negotiations are also under way to acquire the land in the Hudson's Bay company, by way of a donation, an acre and a quarter for a drive along the E. Y. and P. railway, and for a road which will give a gradual grade down to the river drive. This drive along the river being graded and underbrushed to make it one of the most beautiful drives in Edmonton, and in time will be a most exquisite road and of great advertising value to the city.
A path is being made along the river's edge, wherever steps or small bridges are necessary the material being obtained from the park and the popular material being graded and placed side by side. There will be an automobile drive around the park.
The "rabbit trails" which are really as the ground has been underbrushed and a path cleared following the run of the river, will be graded and wind in and out, meeting with a continual change of scenery, and at the same time the city will be surrounded by the rays of the sun. These trails cross and intersect each other in every direction.
In the center of the park and in the midst of these beautiful rabbit trails will be a picnic ground capable of accommodating over three or four hundred picnickers. Tables, benches and swings will be provided and stone steps in real picnic style built by the caretaker for the use of the picnickers.
The links are beginning to show signs of spring and are in excellent condition. Yesterday afternoon a large number of golf enthusiasts were on the course, which showed that it was a good place to spend an afternoon. The question was asked, "If this man" turns out at the end of the year, many will turn out when the summer really comes."
The building that was turned over by the golf club are being renovated and re-shingled. A new caretaker's residence is practically completed and the club house is being built in the building west of the club house for the use of those who play golf. Fourteen quarters are being fitted up in the club house, and Commissioner Harrison stated that there would be no reserved every afternoon to those who desired it.
It would be possible to secure golf clubs and balls on the links, and he stated that there would be no reserved clubs, but there would be balls for sale at a price of five cents or more higher than the price at which they could be obtained from city merchants. He stated that this five cents was added in order that there would not be any opposition to the merchants and also as a small fine for the forgetfulness of the player.
At the present time there are upwards of forty men employed removing the underbrush and generally cleaning up the park. These men will all be laid off in a short time and the building of rustic benches, seats and general maintenance of the park will be left to the caretaker.
